CADROIT CONTACT REPORT

30 June 1956

Date, Time, and Place of Meeting: 28 June 1956, 1600-1730, pre-arranged cafe
Present: a. ____ b. CARBONYDRATE

This was a normal meeting with CARBOHYDRATE. Following points were covered:

1. CARBO delivered a report (attached) on another visit by Frau Martini, a brother from the DDR in MfS Auftrag. CARBO had debriefed the brother, who had been instructed by the MfS officer "SOMMER" (physical description at end of CARBO's report) to stab openly that he came at MfS behest. The brother was to persuade Frau Martini to return to the DDR. At his request, he will report to SOMMER" that Frau Martini refused to consider the idea and threatened to inform the police if the brother ever mentions the subject again. Noteworthy is that Martini use of memoy by "SOMMER", who gave the brother DM MOD for travely surposes.

2. Califo delivered report (attached) on his last meeting with MUSTRACE, W. declared FULLBORN would be free by 4 July. HERMS would not be released until CARBO had given information to the MfS. CARBO noted he could not give any info other than that earlier described (identities of MA suspected of working for the MfS, identities of staffers suspected of MfS work-no MA names in general, however). The MfS pressed to have FULLBORM's father make the next meeting with CARBO (an old and convinced Communist, it should be noted). CARBO agreed on condition that FULLECEN junior be freed before the next meeting. The question of what Sort of info CARBO might pass to the MfS in an effort to effect HERMS' release will ## become more pressing when and if FELLBORN is released (as he may well be). CARBO appeared to believe that he might be able to secure HERM's release be passing certain info-me have got to make the attempt, anyway". He also feels personally indebted to HEMMS as well as FELLBORN, since both are old East Berlin f riends whom CARBO, recruited for CART purposes. He should be and will be watched for a tendency to pass info to the MfS of too great malus in an appoint to samue his foliands walsons

DECLASSIFIED AND RELEASED BY CENTRAL INTELLIGENCE AGENCY SOURCES METHODS EXEMPTION 3 B 2 B HAZIWAR CRIMES DISCLOSURE ACTUATE 2008

3. CARBO delivered copy (autached) of his debriefing of Bode (Werner WOLFF), who had recently been released by the MfS. It contains a description of the MfS case officer giving his name as (fm) KRUEGER, who dictated the letters which were sent to PESCH:

about 35 years, about 1.78 m., athletic lightly waved appearance with beginnings of a small paunch, full thick dark/hair, damaged teeth, full round face, normal complexion, were marriage ring and a cheep wristwatch, spoke Berliner dialect, made no very intelligent impression.

4. CARBO noted he had recently seen a contact report on interesting info given to Dr. Berger by a "very good MA which he has who works with the Kammer fuer Aussenhandell. von RAU had recently made a speech before the Kammer concerning foreign tracks after which he had described during private discussions with certain members of the Kammer the upcoming strategy of the DDR sixed at securing recognition. Trade relations will not be renewed with Western countries until and unless they recognise the DIR. Sconcaic pressure is to be used to achieve this objective. The tactic is to be used with Demmark, Norway, Italy, Switserland, and Rugoslavia, among others. Demark is receiving priority at the present time and is to serve as a "test case". von RAU pointed out, however, that this tactic is based on bluff-strade relations will eventually be continued, even though the Western countries in question refuse to recognise the DIR. Berger has been windering how to get this info to those concerned, according to CARSO, and has informed the appropriate commercial representatives of Dermark, Switzerland and possibly also of Norway. The source of this info mas, according to CARBONs description, "Karl BERCHARMS, in whom EDS has shown interest. CARBO queried whether - was interested in further details (not being sware that we have been receiving the BERGMANN info for some time), and will try to get a copy of the contact report.

5. Also according to "RERCHANN", who is stated to be a good friend of
Herman KASTNER (finally Stellvertretender Minister-President), KASTNER recently
told "BERGMANN" that SEMIONEY and recently remarked to him that ULBRICHT was

Berger understands cream the same organization, inclusionally house rules. (This cash on-the barrelhead approach.)

territially on the way out. SEMIONEY reportedly predicted that he would be

confinitely on the way out. SEMICHEV reportedly predicted that he would be out of his position by the end of the year. This report should come in in written form along with the rest of the "BEROMANN" material which EDS normally gets, as well as in the copy of the contact report which CARBO will procure.

6. _____ used the occasion to query concerning what offices might receive information from Berger. CARBO noted BERGER has liaison relations with a number of German offices in the Bundeshaus. As to American offices, CARBO noted Regger he had a friendly social relationship for about one year with two Annican intelligence staffers from "Templhof" (apparently A-2), named (fmm) Gols and (fmm) Schneider. It had begun when CADROIT received a report re a long range camara which had beam set up in position to observe the airfield. In passing this to TAB, Berger had come to know the two men in question, has seen them on occasion since them. CARBO got himself invited to one of the social MENTE mentings just to check to be sure that it was only social; poker was played all evening. CARGO cautioned Berger that no info was to be passed. Berger assured CARBO that no into that was not public knowledge was passed Berger understands clearly that anything more would be strictly contrary to house rules. (This is the same organization, incidentally, which earlier tried to recruit CARBO with a cash on-the-barrelhead approach.) NOTE: CARBO gave this info on Berger/A-2 connections only with a little pushing and prodding. It appears ed he feared Berger would be embarrassed through the matter with subsequent repercussions for CARBO. REPAREMENTAL CARBO stressed that the connection LADRLL knows of it. was only social, not business in mature./ __assured CARBO that he would not be disconfited by the matter, etc.

7. []paid CARBO DM 18.40 for gas, Spesen, etc. involved in the WUSTRACK meetings.

NEXT MEETING: 5 July 56. 1600, pre-arranged cafe.

ADDRESS: CARBO reported GEBRICH's brother had again visited him at MrS behest.

Glbrich had failed to call CARBO into the meeting despite his earlier
